SKILLS SUMMARY

- **Tools:** Nmap, Burp Suite, Wireshark, Metasploit, OSINT Tools
- **Languages:** C, C++, Java, Python
- **Platforms:** Windows, Linux, AWS Cloud, MAC
- **Soft Skills:** Leadership, Analytical Thinking, Problem-Solving, Incident Handling, Adaptability

PROJECTS

- **Vulnerability Assessment & Remediation Project (Nmap + Nessus) | [GITHUB](#)** Nov'2025
 - Identified high-risk vulnerabilities (CVEs), misconfigurations, and outdated services.
 - Created remediation plan by applying patches, disabling unused services, and enforcing firewall rules.
 - Documented findings in a security audit report following cybersecurity compliance standards.
- **Ransomware Detection & File Integrity Monitoring (FIM Project) | [GITHUB](#)** Aug'2025
 - Implemented a File Integrity Monitoring (FIM) tool using Python to detect unauthorized file encryption or tampering.
 - Created SHA-256 hash verification for baseline comparison.
 - Triggered real-time alerts when anomaly behaviour matched ransomware-like activity.
- **SOC Log Analysis & Threat Detection Dashboard (SIEM Project) | [GITHUB](#)** Jul'2025
 - Built a Security Information and Event Management (SIEM) environment using Wazuh + Graylog on Ubuntu.
 - Configured real-time alerting rules for brute-force attacks, malware execution patterns, and unauthorized access attempts.
 - Developed a visual threat dashboard to track alerts, log severity, and host risk scoring.

TRAINING

- **Cybersecurity | Cipher Schools | [Certificate](#)** Jun'2025-Jul'2025
 - Gained hands-on exposure to cybersecurity fundamentals, vulnerability scanning, network security, and threat analysis.
 - Performed simulated attacks and system monitoring to detect unauthorized access and malicious behavior.
 - Implemented secure coding practices and basic encryption techniques to prevent data breaches.
 - Conducted file integrity monitoring using hash verification concepts and anomaly-based detection methods.

CERTIFICATIONS

- Cloud Computing | NPTEL | [Certificate](#) Oct'2025

CERTIFICATE

- Computer Architecture | IBM | [Certificate](#) Jul'2024
- Computer Networking | Google | [Certificate](#) Jun'2024

ACHIEVEMENTS

- Directed a 50+ member team as Executive Board Member – Untangle, enhancing productivity and event. Nov'2025
- Solved 50+ Labs on try hack me platform which improved my cyber security concepts. Nov'2025
- Completed 10+ certifications in Python, CSS, SQL, JavaScript, REST APIs, broadening technical skills. Apr'2025
- Led cross-functional teams as CCA Captain, boosting participation and improving event execution. Mar'2023
- Earned 5 badges in Python, C, and C++ on HackerRank, showcasing programming proficiency. Dec'2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering
CGPA: 8.27
Apr'2023-Present
- **Kendriya Vidyalaya** Maharashtra, India
Intermediate PCM
Percentage: 67%
Apr'2022-Mar'2023
- **Kendriya Vidyalaya** Maharashtra, India
Matriculation
Percentage: 85%
Apr'2020-Mar'2021
